

2021 REVIVE STUDENTS ACCOMPLISHMENTS

As this year ends we want to celebrate all that God is doing in Revive Students with you. Teenagers don't experience a smaller version of Jesus. They experience the full weight of Him now! We are encouraged to see how teens are encountering God right now and allowing Him to change their lives.

Let us not become weary in doing good, for at the proper time we will reap a harvest if we do not give up.

REVIVE *Story*

We witnessed several students experience significant spiritual growth this past year, this is one story we are praising God for. In June Revive Students staff began praying for a particular student who was struggling with mental health due to past trauma. This in turn was creating behavior that was causing disruption for their small group, peers and leaders. We prayed specifically that God would bring a leader that was equipped to help this student. Through God's provision, a new leader joined our team that has training and experience working with teenagers who have experienced trauma. This leader was able to partner with this student and provide the exact encouragement, structure and support needed. It has been nothing short of a miracle to watch this student grow. There has been a transformation in the way this student dresses, talks and carries themselves. They used to have panic attacks on Wednesday night and now they are participating in all the activities with drastically reduced anxiety. This student comes from a non-church home and previously only attended on Wednesday nights. They are now attending our adult Sunday Service each week. **God is faithful and stories like this remind us that in the midst of hard situations, God can and is still working.**
